

## PUTTING AWAY CHAIRS AFTER YOU'VE FINISHED...

Unless we ask you otherwise, it really helps us to have the chairs left tidily and safely as shown in the pictures below.  
NOTE: there is a limit of 9 chairs per stack to ensure that they don't easily topple forwards.

Thank you for your cooperation.

We leave out two rows of six chairs positioned close to the first pillar back from the pulpit. The rows are slightly curved to face the altar with generous spacing between the chairs and rows.

We leave 8 chairs in the Lady Chapel:

We leave **no** chairs in the North Aisle (where the candle stand is). All chairs should be stacked in piles (of at most 9) near the font as shown below. Please don't mix the chairs with arms with the others.

The chairs with arms are left in 2 piles of 9 as shown below, so they can be accessed without moving other chairs. Please avoid handling them by their arms (because the wood can break off).
